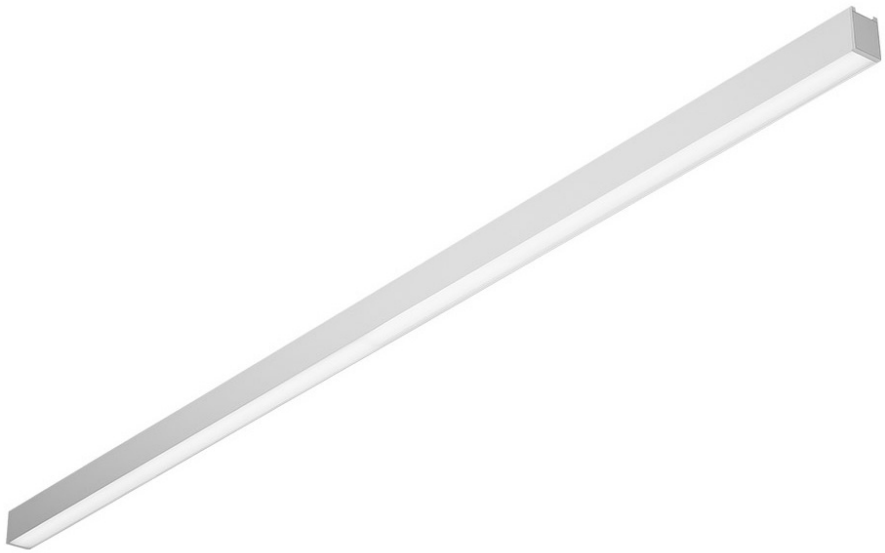
BARIS 52 LED N 1983MM 4175LM 840 IP44 I CL. DALI PLX ANODE CO 32W NO DIFFUSER (18W/M)

DETAILED CARD



TECHNICAL PARAMETERS

Index:	152672
Rated power of the luminaire [W]*:	32
Luminaire power [W/m]:	18
Luminous flux [lm]*:	4175
Colour temperature [K]:	4000
Ingress protection:	IP44
Energy efficiency class:	D
Colour of the body:	grey

CHARACTERISTICS

A suspended or surface-mounted luminaire with classic proportions and a modern design. The lamp's design allows for the creation of lines up to 6 meters long without profile joints and up to 25 meters without shade joints. Straight connectors and luminous L-, T-, X-, and V-shaped bends allow for the creation of virtually unlimited straight lines, shapes, and patterns. The lamp body is made of an anodized gray aluminum profile or an aluminum profile painted white or black (other colors available upon request). The optical system consists of a prismatic shade (PRM) or a dedicated, flexible opal diffuser that evenly illuminates the lamp. The lamp's modularity and disassembly allow for the replacement of electronic components, such as the LED strip and power supply, and the lampshade itself. The lamp's profile has been adapted for use with intelligent IOT modules, further optimizing the level and quantity of light delivered. A Direct/Indirect version is also available, allowing for some of the light to be directed upwards, illuminating the ceiling. The pendant lamp is not equipped with suspension system components. Due to the extensive customization options, the number of power supply and 1.2m support suspensions, as well as surface-mounted boxes, can be selected from the accessories, depending on your specific needs. **Custom color versions, CRI90, with IoT modules and sensors, DALI versions, and emergency modules are available upon request. Standard colors include anodized gray, black, and white.**

APPLICATION

This lamp is designed for indoor use. It can be used as a main light source and supports office work requiring visual focus. Its unique design, energy-efficient LED modules, and compatibility with external DALI lighting control systems make it suitable for use in modern Class A+ office buildings, with particular emphasis on representative rooms, conference rooms, passageways, and anywhere else requiring IP44 ingress protection. For surface-mounted and pendant BARIS 52 LED lamps (OPAL, PRM), a separate shade (available as an accessory) with the appropriate length, representing the sum of all lines, must be ordered separately. The shade, available in 0.5m increments, is cut by the contractor and has a maximum length of 25m.
