## TECHNICAL PARAMETERS

|                                     |      |
|-------------------------------------|------|
| <b>Nominal power [W]:</b>           | 28   |
| <b>Colour temperature [K]:</b>      | 4000 |
| <b>Luminous flux [lm]*:</b>         | 3500 |
| <b>Supply voltage [V]:</b>          | 24   |
| <b>Luminous efficacy [lm/W]:</b>    | 125  |
| <b>Ingress protection:</b>          | IP65 |
| <b>Impact resistance:</b>           | IK10 |
| <b>Electrical protection class:</b> | III  |
| <b>Colour rendering index:</b>      | >80  |
| <b>Diffuser material:</b>           | PC   |

## CHARACTERISTICS

PROFI SLIM LINE LED is an innovative luminaire that provides a strong luminous flux, incomparably higher than in traditional fluorescent lamps. The luminaire is characterized by a compact structure (its diameter is only 20mm), thanks to which it will effectively fit into the mounting location. Luminaires are offered in selected sets with a dedicated mounting system (mounting brackets or magnets) and integrated with an easy-to-connect wiring system, connectors, and power supply. Thanks to this, you can easily create a connection configuration, and the installation of the luminaire system is intuitively simple and fast. Standardly available in sets: 2, 4, and 6 pieces.

Optional:

- color temperature: 3000K, 5700K,
- any sets.

## APPLICATION

The luminaire is especially recommended for lighting car lifts, workshops, machines, and industrial surfaces.
