

PROFI SLIM LINE LED KIT 2X21W WITH POWER SUPPLY

DETAILED CARD

TECHNICAL PARAMETERS

Nominal power [W]:	42
Colour temperature [K]:	4000
Luminous flux [lm]*:	5100
Supply voltage [V]:	220 - 240
Luminous efficacy [lm/W]:	121
Ingress protection:	IP65
Impact resistance:	IK10
Electrical protection class:	III
Color rendering index (Ra) >:	80
Diffuser material:	PC

CHARACTERISTICS

PROFI SLIM LINE LED is an innovative luminaire that provides a strong luminous flux, incomparably higher than in traditional fluorescent lamps. The luminaire is characterized by a compact structure (its diameter is only 20mm), thanks to which it will effectively fit into the mounting location. Luminaires are offered in selected sets with a dedicated mounting system (mounting brackets or magnets) and integrated with an easy-to-connect wiring system, connectors, and power supply. Thanks to this, you can easily create a connection configuration, and the installation of the luminaire system is intuitively simple and fast. Standardly available in sets: 2, 4, and 6 pieces.

Optional:

- color temperature: 3000K, 5700K,
- any sets.

APPLICATION

The luminaire is especially recommended for lighting car lifts, workshops, machines, and industrial surfaces.
