

# TERRACO SIDE DIR GU10 PLX IP54 I KL. BLACK

DETAILED CARD

## TECHNICAL PARAMETERS

|                              |               |
|------------------------------|---------------|
| Light source:                | GU10 LED lamp |
| AC voltage range [V]:        | 220 - 240     |
| Frequency [Hz]:              | 50-60         |
| Electrical protection class: | I             |
| Ingress protection:          | IP54          |
| Impact resistance:           | IK04          |
| Light distribution type:     | SIDE DIR      |
| Exchangeable source:         | yes           |
| Diffuser material:           | PMMA          |
| Diffuser type:               | MAT           |

## CHARACTERISTICS

Terraco is a luminaire with a modernist construction distinguished by its interesting minimalist design. The powder-coated steel body is available in four colour versions: silver, graphite, white and black. It offers a choice of different light distribution options, allowing it to be used in various applications, both: vertically and horizontally. Installed on a building facade, it can distribute light downwards, upwards and sideways. It has a high ingress protection rating of IP54. It is designed for surface mounting. **\*Light source not included.**

## APPLICATION

Terraco is particularly suitable as exterior facade lighting, terrace, patio and balcony illumination. Its small dimensions expand the range of applications - it can light up alcoves and hard-to-reach areas. Terraco fittings can also be arranged in various ways to create interesting arrangements in buildings' interiors. The fitting allows a large number of interesting lighting concepts to be realised. It can be used to highlight contemporary architecture.
