CHARACTERISTICS

Emergency Portal is a luminaire designed to illuminate open spaces and to indicate the direction of evacuation through the use of pictograms. A modern emergency module with an automatic test ensures maintenance-free reporting of errors or the need to replace the battery. Efficient LEDs of the latest generation ensure adequate illumination of escape routes.

APPLICATION

The high level of protection IP54 allows for use in industrial spaces, and the slender, timeless and neutral body of the luminaire will also be perfect for public facilities - offices, restaurants, commercial facilities. The possibility of ceiling and wall mounting extends the range of possible applications.
