MUSTANG LED

DETAILED CARD

TECHNICAL PARAMETERS

Index:	334672
Light source:	SMD LED
Charging time [h:min]:	4h
Battery:	Li-ion 3.7V 5200mAh
Battery capacity [mAh]:	5200
Diffuser colour:	milky
Colour of the body:	black
Dimensions (H/W/T/S) [mm]:	260/75/75

CHARACTERISTICS

The LED hand lamp is an option for those working in the automotive workshop, mobile service, garage or construction site. The functionality of LED hand lamps will benefit both professionals and DIY enthusiasts - anyone for whom good lighting is important during work or hobby activities. The lamp is characterised by a smooth change of light beam in the range of 60-1000lm, a 180° swivelling upper part and a hook and strong magnet in the base, which allows you to focus on the task at hand. A five-stage battery level indicator helps to control the lamp's burn time. The Power Bank function allows other devices to be charged from the lamp battery - e.g. a mobile phone. Illustrative operating time for selected streams: 1000lm - operating time 1.5h; 60lm - operating time 24h

APPLICATION

The Mustang LED workshop lamp has been designed for use in industry, garages, paint and detailing workshops and construction sites. The lamp is the ideal solution for auto-detail shops, as the light emitted by it perfectly shows the "clouds" and the untreated surface of the car body. Thanks to infinitely variable light output from 60 - 1000 lm, scratches and clouds are even more visible.

DETAILS

Poglądowy czas pracy dla wybranych strumieni: 1000lm - czas pracy 1,5h; 60lm - czas pracy 24h
