CHARACTERISTICS

The Flex Line LED light is a light line designed for quick and temporary illumination of a workstation or construction site. Available in 10m, 15m and 20m LED cable versions, it allows line connections of up to a maximum of 50m. The lamp's special shape and operating principle allows it to be freely mounted in a variety of working conditions (mounting on nails, screws, pipes, scaffolding, etc.) while directing the position of the light direction.

APPLICATION

An innovative light chain designed for fast and versatile lighting of workplaces. Its unique shape and clever design, allow for express installation even in very unusual places: construction sites, workshops, renovations, vehicle repair areas, service shops, etc.
