

# IP44 40 METRE H07RN-F 3X1.5MM2 REEL EXTENSION CABLE (PL-FR STANDARD)

DETAILED CARD

## TECHNICAL PARAMETERS

<b>Index:</b>	612398
<b>Supply voltage [V]:</b>	220 – 240
<b>Frequency [Hz]:</b>	50
<b>Electrical protection class:</b>	I
<b>Colour of the body:</b>	black
<b>Ingress protection:</b>	IP44
<b>Working temperature [°C]:</b>	from -20 to +35
<b>Plug type:</b>	UNI-SCHUKO
<b>Socket type:</b>	PL-FR
<b>Sockets:</b>	4

## CHARACTERISTICS

Regardless of the length of the cable, they allow it to be unwound and retracted quickly. Thanks to their clever design, extension cords are comfortable to use and significantly improve working comfort. The extension cable is suitable for use in the workshop or on the construction site, as well as for domestic and garden use. The extension cord has a built-in thermal switch which protects against overheating. The IP44-rated sockets are fitted with a flap - suitable for outdoor use in various weather conditions. The reel has a cable holder and a brake to avoid accidental over-extension of the overextension. It is ideal for connecting any electrical consumer such as: power tools, lawnmowers, hoovers, construction equipment, etc. It is made of flexible cable for easy retraction.

Thermal protection: YES

Maximum load for coiled extension cord: 1100W

Maximum load for extension cord unrolled: 3200W

## APPLICATION

Professional construction extension cords are specialised extension cords designed for use on construction sites or in workshops.
