CHARACTERISTICS

LINEA S LED is a surface-mounted and suspended light line system, representing a new generation of lamps dedicated to LED technology. The innovative connection system and pass-through cabling enables lamps to be quickly combined into a light line and allows flexible replacement of light modules to suit current needs. The design used allows for easy assembly and power connection. The anodised steel body, designed from the ground up, ensures the lamp's strength and robustness, while the narrow side profile allows installation in hard-to-reach areas. Diodes from a renowned manufacturer and new LED modules contribute to the very high luminous efficiency.

APPLICATION

Versatile led lamp designed for indoor use, especially recommended for lighting large-scale commercial, manufacturing and warehouse facilities. The lamp for use in both new applications and replacements of traditional T8 and T5 fixtures with energy-efficient LED solutions.
