LINEA S LED SINGLE 1490MM 11900LM LS1 840 IP54 VN (74W)

DETAILED CARD

TECHNICAL PARAMETERS

Energy efficiency class:

Index: 851087

IK03

IP54 Ingress protection:

Impact resistance: Rated power of the luminaire [W]*:

11900

Luminous flux [lm]*:

Colour temperature [K]: 4000

Material of the body: coated steel

Colour of the body: **RAL9010**

PC Diffuser material:

CHARACTERISTICS

LINEA S LED SINGLE is a surface-mounted and pendant version of a single lamp in LED technology created on the basis of the LINEA S LED light line, from which it draws the latest technologies used in industrial lighting. The design used makes it possible to replace light modules and power supplies. The body, made of coated steel, provides the lamp with strength and robustness, while the narrow side profile allows installation in hard-to-reach places. The high IP54 sealing rating allows the lamps to be installed in environments with increased humidity and dust. Diodes from a renowned manufacturer and new LED modules contribute to the very high luminous efficacy. Versions with through-wiring available.

Attention!

The suspension should be selected separately, as an accessory, depending on the intended installation method.

Each fixture includes 2 surface-mounted brackets with a triangular element for installing the selected pendant.

Surface mounting does not require the selection of mounting accessories.

APPLICATION

A versatile LED lamp for indoor use, particularly suitable for lighting large-scale commercial, manufacturing and warehouse facilities. A lamp for use in both new applications and replacing traditional T8 and T5 luminaires with energy-efficient LED solutions.
