

QUEST LED EVO M 19300LM I CL. IP67 740 90D 111W

DETAILED CARD

TECHNICAL PARAMETERS

Index:	833960
Ingress protection:	IP67
Luminous flux [lm]*:	19300
Colour temperature [K]:	4000
Colour rendering index:	70
SDCM:	≤ 3
Electrical protection class:	I
Energy efficiency class:	B
Material of the body:	aluminium
Colour of the body:	RAL7016

CHARACTERISTICS

Quest LED EVO M, their high-bay versions: surface-mounted Quest LED EVO M HB NT and suspended Quest LED EVO M HB Z are extremely efficient floodlights and premium HB class luminaires, manufactured in Poland. Their body is made of die-cast aluminium, powder coated, without an external heat sink and ribs that make it difficult to keep clean. The diffuser is made of tempered glass, under which there are LEDs with the highest efficiency. Different types of optics, especially asymmetrical ones, provide great freedom in choosing the right solution for a specific application. Thanks to the highest tightness rating on the market (IP67) and maximum impact resistance (IK10), the floodlights will perform well in all conditions, regardless of the weather and installation location. The new version of the renowned and proven QUEST model offers even better lighting parameters, achieving an efficiency of over 170 lm/W. Quest LED EVO M meets the requirements of PN-EN 60598-2 part 5, which allows it to be classified as an illumination projector, enabling complete freedom of installation in any position, with 360° rotation and resistance to strong winds. An additional advantage for contractors is the sealed quick connector – an innovative solution that eliminates traditional, time-consuming connection methods. Thanks to an intuitive system of coloured latches, connector installation is simple, quick and tool-free. The HB NT version is designed for surface mounting as a highbay using dedicated brackets. The HB Z version is designed for suspension. The accessory kit includes brackets for pole mounting, a frame for flush mounting (e.g. shelters), light pollution reduction screens and protective grids in two colours with different degrees of light reduction (white RAL7016: 4%, body colour RAL7016: 8%). The models can be equipped with an external motion and twilight sensor. They are also available in the ENDURA version, resistant to elevated ambient temperatures up to 50°C. The range also includes dual-module versions with increased flux and power. DALI versions are available (in the case of a gap in a specific power rating in the range with a DALI power supply, check the ENDURA DALI versions). In addition, a version designed for RGB+W illumination is available.

APPLICATION

Quest LED EVO M is widely used in lighting educational, administrative and recreational facilities, halls, garages, passageways, warehouses, shops, as well as in the food industry and commercial and service facilities related to food products. They are an ideal solution for illuminating buildings, small sports fields, open spaces and car parks. They can be mounted as floodlights on poles and masts, on building facades, as well as surface-mounted highbays (HB NT version) and suspended highbays (HB Z version). Thanks to the flush-mounted option, they are perfect for shelters. Quest LED EVO M is an excellent choice for factories, production halls and large warehouses.

TECHNICAL PARAMETERS TABLE

Index:	833960	Ingress protection:	IP67
EAN:	5905963833960	Impact resistance:	IK10
Light source:	LED	Mounting version:	surface
Rated power of the luminaire [W]:	111	Working temperature [°C]:	from -20 to +35
Supply voltage [V]:	220 - 240	The number of implement units:	2
Frequency [Hz]:	50-60	Number on the palette [pcs]:	48
Luminous flux [lm]:	19300	Net weight [kg]:	8
Luminous efficacy [lm/W]:	174	Category type:	floodlights
Energy efficiency class:	B	AC voltage range [V]:	198-264
Electrical protection class:	I	DC voltage range [V]:	176-280
Colour temperature [K]:	4000	Version:	floodlight
Colour rendering index:	70	LED lifespan L70B50 [h]:	162000
SDCM:	≤ 3	LED lifespan L80B20 [h]:	101000
Beam angle [°]:	90	LED lifespan L90B10 [h]:	47000
Diffuser material:	glass	Warranty [years]:	5
Diffuser type:	transparent	CE certificate:	75/2025
Material of the body:	aluminium	Environmental Product Declaration (EPD):	816/2025
Colour of the body:	RAL7016	Manual:	Download PDF
Dimensions (H/W/T/S) [mm]:	383/550/57	Category of application:	industrial
Mounting dimensions [mm]:	400
