

# QUEST LED EVO EVEREST 32200LM I CL. IP66 840 75D 203W

DETAILED CARD

## TECHNICAL PARAMETERS

Index:	830983
Ingress protection:	IP66
Impact resistance:	IK10
Rated power of the luminaire [W]*:	203
Luminous flux [lm]*:	32200
Colour temperature [K]:	4000
Colour rendering index:	80
SDCM:	≤ 3
Electrical protection class:	I
Energy efficiency class:	B

## CHARACTERISTICS

The Quest LED Evo Everest is the pinnacle of technology in the field of high-bay luminaires. The latest, largest and most powerful member of the renowned and proven QUEST family, designed for the most demanding production, logistics and warehouse spaces. It combines exceptional light efficiency, uncompromising durability and an aesthetic, industrial design. It is a modern, premium-class industrial luminaire, manufactured in Poland, designed for use in demanding environments thanks to its die-cast aluminium body, without an external heat sink and fins that make it difficult to keep clean, while perfectly dissipating excess heat. The diffuser is made of tempered glass, under which are high-performance LEDs. Various types of optics, especially asymmetrical ones, provide great freedom in selecting the right solution for a specific application. Thanks to the highest tightness rating on the market (IP67) and maximum impact resistance (IK10), EVEREST will perform well in all conditions – regardless of the weather and installation location, with an efficiency of 170 lm/W. An additional advantage for contractors is the sealed quick connector – an innovative solution that eliminates traditional, time-consuming connection methods. Thanks to an intuitive system of coloured latches, connecting the lamp is simple, quick and tool-free. A set of accessories allows you to expand the lamp with an additional module or modules, significantly increasing its lighting capabilities, which is particularly important for high halls. Models available with Zhaga D4i module.

## APPLICATION

Quest LED Evo Everest is widely used in lighting educational, administrative and institutional facilities, halls, garages, passageways, warehouses, shops, as well as in the food industry and commercial and service facilities related to food products. They can be used as a solution for sports fields, open spaces and car parks.

## TECHNICAL PARAMETERS TABLE

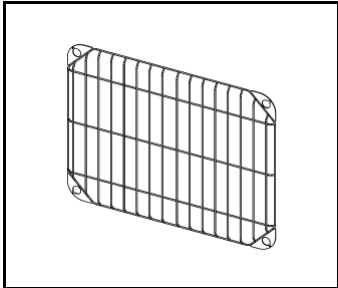

Index:	830983	Diffuser type:	transparent
EAN:	590596830983	Optics material:	PC
Light source:	LED	Optics:	lens
Rated power of the luminaire [W]:	203	Material of the body:	aluminium
Luminous flux [lm]:	32200	Colour of the body:	RAL7016
Supply voltage [V]:	220-240	Dimensions (H/W/T/S) [mm]:	570/441/87
Frequency [Hz]:	50-60	Mounting dimensions [mm]:	542/366
Luminous efficacy [lm/W]:	159	Impact resistance:	IK10
Energy efficiency class:	B	Ingress protection:	IP66
Electrical protection class:	I	Mounting version:	suspended
Colour temperature [K]:	4000	Working temperature [°C]:	from -20 to +35
Colour rendering index:	80	Dimensions of single box [mm]:	572
SDCM:	≤ 3	Number on the palette [pcs]:	42
LED lifespan L70B50 [h]:	161000	Net weight [kg]:	9.500
LED lifespan L80B20 [h]:	100500	Warranty [years]:	5
LED lifespan L90B10 [h]:	47500	CE certificate:	<a href="#">98/2025</a>
Beam angle [°]:	75	Environmental Product Declaration (EPD):	<a href="#">816/2025</a>
Diffuser material:	glass	Manual:	<a href="#">Download PDF</a>
