## CHARACTERISTICS

### M20x40 male adapter

The SKVER adapter is a mounting component that enables Skver LED S and Skver LED Pro luminaires to be fixed to various types of mounting systems and support structures. The adapter's designation specifies its connection parameters. The M20x40 male adapter features a coupling with an external diameter of Ø42 mm and an integrated M20 external thread 40 mm in length, ensuring easy and secure installation of the luminaire.

The adapter is made of high-quality stainless steel or aluminium, ensuring a durable and stable connection as well as an aesthetically pleasing finish to the installation. A wide range of threaded variants – M20, 3/4", 1" – and pipe connections (Ø48/60) allows SKVER luminaires to be easily adapted to the requirements of a specific lighting project.

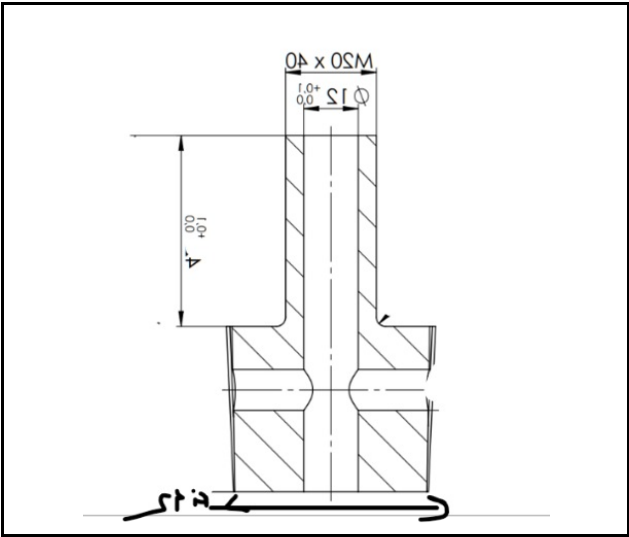

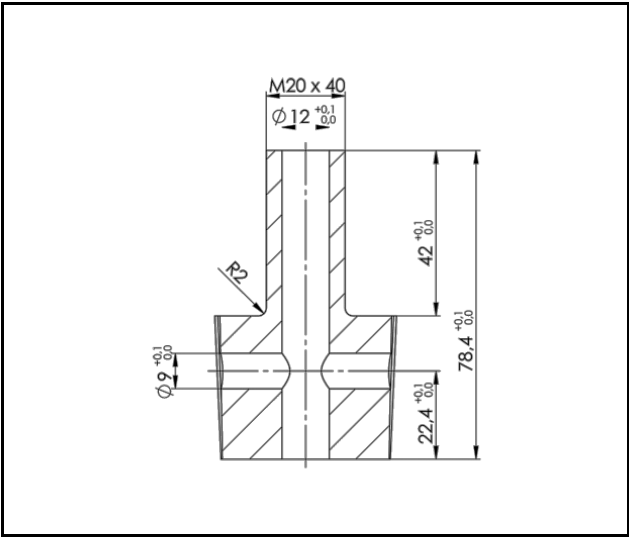

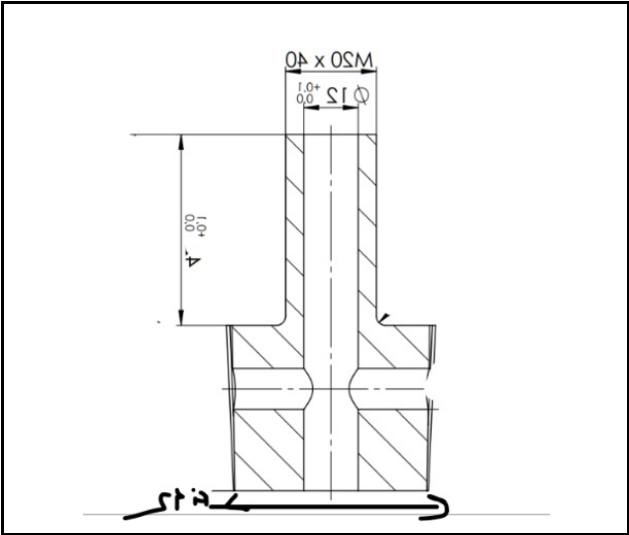

## APPLICATION

The adapter is designed for mounting Skver LED S (R) and Skver LED Pro (R) luminaires, enabling their easy integration with various types of support structures, secure fixing and an aesthetically pleasing finish to the lighting installation.
