CHARACTERISTICS

M20x25 female adapter

The SKVER adapter is a mounting component that enables Skver LED S and Skver LED Pro luminaires to be fitted to various types of mounting systems and support structures. The adapter's designation specifies its connection parameters. The M20x25 female adapter features a connector with an external diameter of Ø42 mm and an integrated M20 internal thread 25 mm in length, ensuring easy and secure fitting of the luminaire.

The adapter is made of high-quality stainless steel or aluminium, ensuring a durable and stable connection as well as an aesthetically pleasing finish to the installation. A wide range of threaded variants – M20, 3/4", 1" – and pipe connections (Ø48/60) allows SKVER luminaires to be easily adapted to the requirements of a specific lighting project.

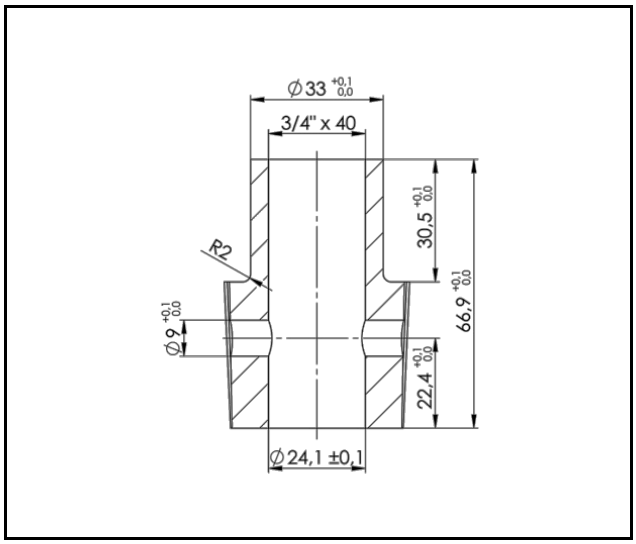

APPLICATION

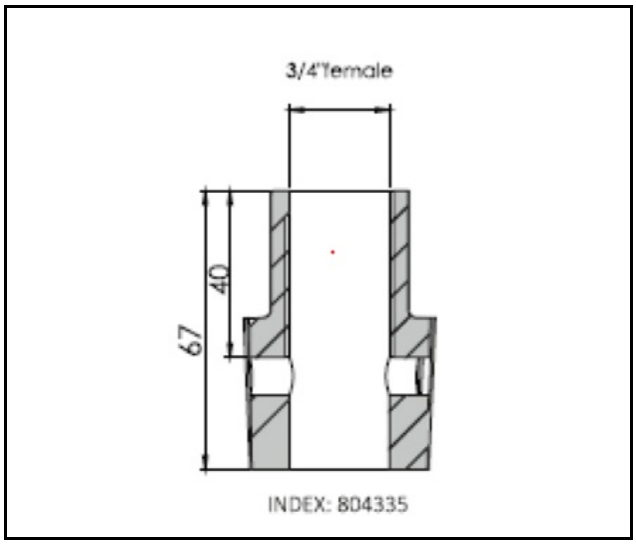

The adapter is designed for mounting Skver LED S (R) and Skver LED Pro (R) luminaires, enabling their easy integration with various types of support structures, secure fixing and an aesthetically pleasing finish to the lighting installation.
