SKVER COVER FI 60MM

KARTA AKCESORIUM

TECHNICAL PARAMETERS

Index:	435478
Accessories:	yes
Manual:	Download PDF

CHARACTERISTICS

This mounting cover, designed for SKVER A, F, L and Z2 luminaires with a diameter of Ø 60, is used to neatly conceal the gap between the pole and the luminaire bracket resulting from mounting the luminaire on a pole of a smaller diameter.
It ensures a consistent appearance of the installation and enhances the aesthetic appeal of the lighting point. Its durable construction and weather-resistant finish guarantee long-term service life in outdoor applications.

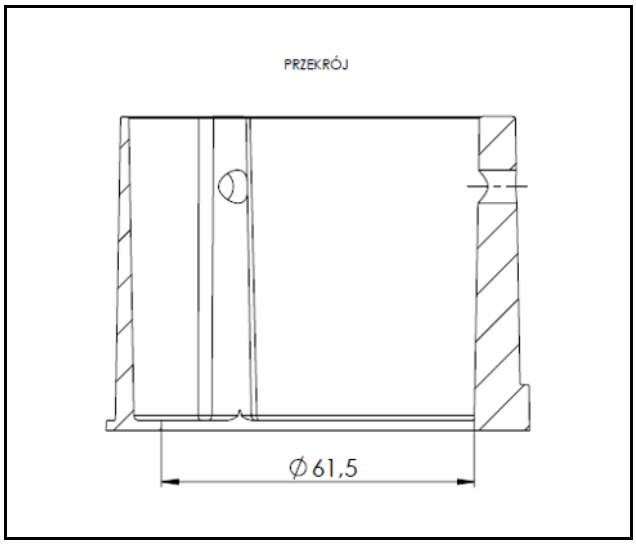

APPLICATION

When used with SKVER A, F, L and Z2 luminaires, it provides an attractive finish to the installation site by concealing the difference in diameter between the pole and the luminaire bracket.
