CHARACTERISTICS

The SKVER visor is a protective cover fitted to the top of the luminaire, designed for SKVER luminaires in the F and L variants. It improves light distribution control and reduces luminous flux emissions in undesirable directions. This accessory helps to reduce glare, enhances user comfort in the illuminated space and gives the luminaire a distinctive, aesthetic appearance.

The SKVER LED urban canopy lends the luminaire a timeless, classic elegance. With its variety of design finishes, it enriches the urban landscape and sets the city apart.

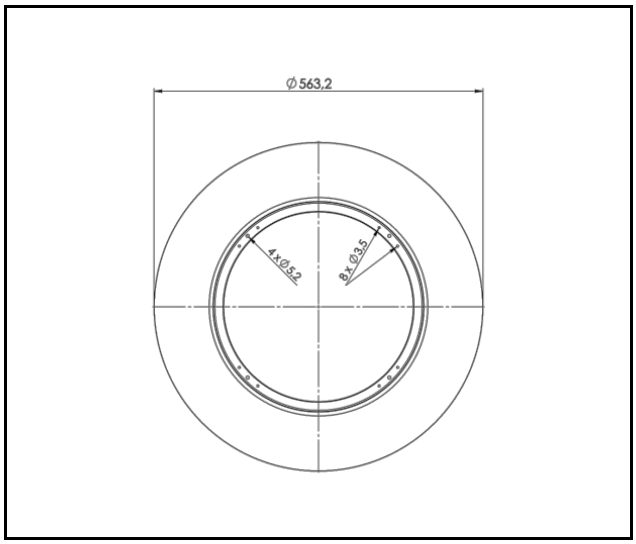

APPLICATION

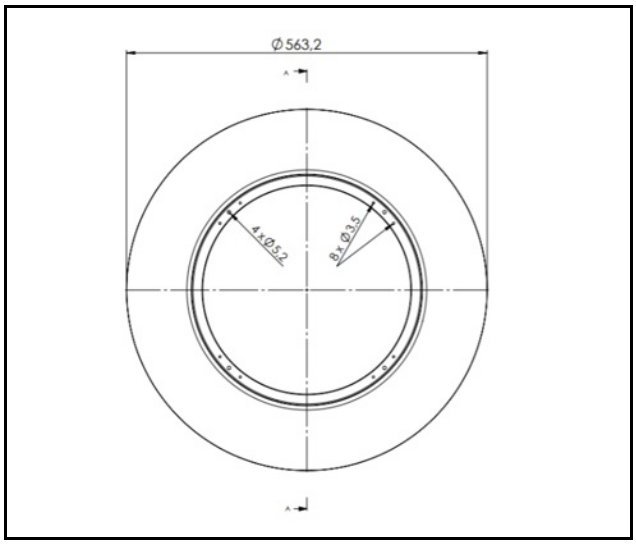

Used with SKVER F and SKVER L luminaires, it helps to protect the dark sky, reduces glare and gives the luminaire a unique character.
