## TECHNICAL PARAMETERS

| Ingress protection: | IP40 |
| :--- | :--- |
| Impact resistance: | IKO6 |
| Rated power of the luminaire [W]: | 155 |
| Luminous flux [lm]: | 21000 |
| Colour temperature [K]: | 4000 |
| SDCM: | D 3 |
| Energy efficiency class: | aluminium |
| Material of the body: | grey |
| Colour of the body: | PMMA |
| Optics material: |  |

## CHARACTERISTICS

LINEA 3 LED is a system of suspended and surface-mounted NEXT-GEN lighting lines, which is a new generation of lamps dedicated to LED technology. An innovative connection system and through wiring allow quick connection of luminaires into a lighting line. The construction used allows for easy installation and connection of the power supply. The body, made from scratch, made of aluminum profile, and subjected to anodization process, provides the luminaire with strength and solidity, and the narrow side profile allows installation in hard-to-reach places. LEDs from reputable manufacturers integrated with redesigned brand new LED modules have an impact on very high luminous efficacy. This guarantees that the required lighting level is achieved and that significant energy savings are achieved. The optical system is made of UV-resistant PMMA. Thanks to the use of linear lenses it is possible to adapt to different lighting requirements - 3 distribution angles: 90, 60, 45.

## APPLICATION

Particularly well suited for indoor use. Dedicated as the primary light source for commercial facilities, manufacturing plants, and warehouses. It is appropriate for new applications as well as replacing conventional T8 \& T5 fittings on energysaving LED solutions.
