

COMPACT LED EVO N

GENERAL CARD

TECHNICAL PARAMETERS

| | |
|---|--------------------------------------|
| Ingress protection: | IP20 |
| Impact resistance: | IK07 |
| Nominal power [W]: | 24.00; 32.00; 42.00; 52.00; 60.00 |
| Luminous flux [lm]*: | 2750 - 8100 |
| Colour temperature [K]: | 3000; 4000 |
| Color rendering index (Ra) >: | 80; 90 |
| SDCM: | 3 |
| Energy efficiency class: | C; D; E |
| Material of the body: | ABS |
| Diffuser material: | PC |
| Diffuser type: | OPAL; PRM |
| Mounting version: | surface |
| Dimensions (H/W/T/S) [mm]: | 620/620/66; |

CHARACTERISTICS

Compact LED luminaire designed for surface mounting. Equipped with energy-saving LED modules and an evenly highlighted opal or prismatic diffuser, providing low glare (UGR<19)*. Made of plastic. Assembly or electrical connection does not require removing the diffuser. Available versions: - with DALI control, - with CORRIDOR function - the corridor function allows the illuminance in objects to be adjusted to changing conditions; in practice, it automatically reduces the luminous flux of the lamp from 100% to 10%.

* The UGR coefficient is met for the typical use of the luminaire

APPLICATION

This luminaire is designed for indoor use in offices or general utility rooms. It can be used as the main light source and it is particularly well-suited to be used as a light source for workplaces that require eyesight focus. The luminaire is used both in new applications, as well as it can replace traditional fluorescent luminaires with energy-saving LED solutions. The fitting's design is suitable for mounting in 600x600 modular ceilings.

DETAILS

The corridor function makes it possible to adapt the lighting intensity in objects to changing conditions. In practice, it automatically reduces the lamp's luminous flux from 100% to 10%. Automatic mode 10 to 100 (version with RCR Hytronik motion detector) The lamp constantly illuminates at 10% of its luminous flux. When the motion sensor detects movement in the preset detection field, the lamp lights up to 100% luminous flux and remains on for the preset time. After the preset operating time, the lamp switches to energy-saving mode and illuminates 10% of the luminous flux. It is possible to connect an ON/OFF switch to switch the lamp off completely.
