GENERAL CARD

TECHNICAL PARAMETERS

Light source: LED module

Ingress protection: IP66

Impact resistance: IK09

Nominal power [W]: 28.00 - 69.00

Luminous flux [lm]*: 4750 - 11300

Colour temperature [K]: 4000

Material of the body: PC

Colour of the body: grey

Diffuser material: PC

Diffuser type: matt

Working temperature [°C]: from -40 to +45; from -40

to +60

Mounting version: surface, suspended

Dimensions (H/W/T/S) [mm]: 1152/85/80; 1432/85/80;

CHARACTERISTICS

TYTAN 2 LED ENDURA is a fitting from NEXT GEN line, which is a new generation of fittings in LED technology. The fitting, designed from scratch, allows new solutions improving the light distribution and temperature balance. Branded led diodes and new LED modules have influence on a very high luminous flux: 155 lm/W. It guarantees the best required lighting level and energy saving up to 68%. The solution based on integration of the diffuser and LED modul is applied in the fitting. The fitting has a lot of facilities making the mounting easier and faster: the system of diffuser suspention, adjustable mounting brackets ensuring the mounting tolerance +/-50mm. Standard equipment of the fitting: clips made of stainless steel (INOX). The body of the fixture and the diffuser are resistant to UV radiation.

APPLICATION

The multifunctional LED lamp is designed for use in areas with high requirements for dust and water resistance. Especially recommended for lighting public facilities, including hospitals, educational facilities, halls, garages, passages, warehouses, shops, food industry, commercial and industrial facilities (factories, laboratories), warehouses, parking lots (underground and multi-level), sports stadiums, transport terminals and underground passages. The luminaire is ideal for new lighting applications as well as replacing traditional fluorescent luminaires with energy-saving LED solutions. Its design is adapted for surface and suspended mounting.
