CHARACTERISTICS

Lightweight and very powerful portable LED floodlight for professional use. Provides even and stable directional illumination. The lamp is made of impact-resistant polypropylene (PP). The anti-glare diffuser made of polycarbonate (PC), despite its matte surface, transmits up to 80% of the light emitted by the LED. It has an ergonomic carrying handle. Standard: rubber cable H07RN-F 3×1.5mm² (5m). With a variety of functions, the lamp is ideal for illuminating any workplace. The high luminous flux and the maximum degree of impact resistance are particularly important in the lighting of construction sites or in the work of services intervening at various emergencies. A high degree of waterproofness allows its use in the harshest weather conditions. Its light weight makes it easy to use for workplace lighting in industrial halls or finishing work.

APPLICATION

Temporary lighting for construction site, finishing works, outdoor earthworks, road and highway repair, Especially useful for mobile services , emergency services, police, military, firefighters, construction crews, electricians, railroad repair, etc.
