

BARIS 52 LED CONNECTORS GK

GENERAL CARD

TECHNICAL PARAMETERS

Light source:	LED module
Rated power of the luminaire [W]*:	17.00; 30.00
Luminous flux [lm]*:	2100; 3100
Frequency [Hz]:	50 - 60
Ingress protection:	IP20
Electrical protection class:	I
Energy efficiency class:	E
Colour temperature [K]:	4000
Colour rendering index:	>80
Diffuser type:	OPAL; PRM
Diffuser colour:	milky; transparent
Material of the body:	aluminium

CHARACTERISTICS

The key feature of L, T, X connectors is that they are equipped with integrated electronics and a diffuser, thanks to which the profile route bends remain illuminated along the entire length. Body is made of anodized aluminium profile in grey or aluminium profile painted white or black (other colors available on request). The optical system is complemented by a dedicated, flexible opal cover that evenly illuminates the connector. There is no division into surface mounted and suspended versions, which make the solution more universal.

Connectors (T, X, L) are supplied with an OPAL diffuser.

Connectors T, X, L UGR, and PRM diffusers are available on request.

APPLICATION

BARIS 52 LED connectors in the shape of the letter L, T, X and straight connectors create extraordinary opportunities to configure the light line matched to the character and shape of the room, allowing you to create virtually unlimited straight sequences, figures and patterns.
