CHARACTERISTICS

Terraco LED is a modernist luminaire distinguished by its interesting minimalist design. The powder-coated aluminium body of the lamp is available in four colour versions: grey, graphite, white and black. The multitude of versions with different luminous surfaces allows it to be used in a variety of places and in different ways: vertically and horizontally. Installed on a building façade, it can shine downwards, upwards and sideways. It has a high ingress protection rating of IP54. It is designed for surface mounting.

APPLICATION

The Terraco LED lamp will be particularly suitable as outdoor facade lighting, terrace lighting, and balcony lighting. Small dimensions increase the range of its applications - it can illuminate alcoves or hard-to-reach places. Terraco lamps can also be used in the interiors of buildings and arranged in a variety of ways on the wall to form interesting lighting arrangements. The lamp allows to realize a large number of interesting lighting concepts. It is used to illuminate contemporary architecture.
