### CHARACTERISTICS

Headlamp with charger is a practical solution for people who value convenience and smart technology. The Lena Lighting headlamp can be turned on by hand movement (motion sensor), which allows to automate the moment of activation of the equipment. As a result, a person working with gloves has no problem turning the headlamp on or off. The lamp is also equipped with a non-slip strap, so that it perfectly adheres to the skin or hair. In addition, the lamp offers the possibility to detach the illuminating part from the strap and use it as an independent light source.

### APPLICATION

Lighting for professionals working in construction or workshops, but also runners concerned about safety during training.
