# **INDUSTRY IP66 LED IOT**

GENERAL CARD

# **TECHNICAL PARAMETERS**

Ingress protection:	IP66
Impact resistance:	IK08
Nominal power [W]:	170.00
Luminous flux [lm]*:	24950
Colour temperature [K]:	4000

Beam angle [°]:

Diffuser material: alass

Diffuser type: transparent

70

Material of the body: aluminium

Colour of the body: silver satin

Dimensions (H/W/T/S) [mm]: 1250/104/135;

# **CHARACTERISTICS**

Industry IP66 LED  $\overline{\text{IoT}}$  is a hermetic beam from the NEXT GEN line, which is a new generation of lamps dedicated to LED technology. The body, made from scratch, made of aluminum profile and subjected to anodization process, provides the luminaire with strength and solidity, and the narrow side profile allows installation in hard to reach places. LEDs from a reputable manufacturer and new LED modules have an impact on very high luminous efficacy. This guarantees that the required lighting level is achieved and that significant energy savings are achieved. The lampshade is made of UV resistant tempered glass. The combination of materials (aluminum and toughened glass) and a non-dismantled construction with an external connector provides the luminaire with high resistance to harsh environmental conditions. Suitable for surface and suspended mounting. Options: any RAL color; diffuser made of PC or PMMA.

#### IoT characteristics

Variants available:

IoT BT HYT DALI: Bluetooth HYT module controlled in the Lena Lighting Clue application, **DALI** driver enabling dimming of the light source.

IoT BT PIR HYT 1-10V. Bluetooth HYT module controlled in the Lena Lighting Clue application, PIR motion and light sensor, 1-10V driver enabling dimming of the light

IoT RC PIR HYT DALI has: PIR motion and light sensor programmed byRC remote control and **DALI** driver enabling dimming of the light source.

## **APPLICATION**

The multi-purpose LED luminaire has been designed for use in areas requiring high dust and water resistance. It is especially recommended for use in rooms intended for medical and laboratory purposes as well as in industrial premises.

# Industry IP66 LED IoT - explanation of the different versions:

The **IoT BT HYT DALI** version has: a built-in**BT HYT** module that allows you to program functions in the Lena Lighting Clue app and control in real time, and a **DALI** driver that allows you to dim the light source.

The **IoT BT PIR HYT 1-10V** version has: a built-in**BT HYT** module that allows you to program functions in the Lena Lighting Clue app and control in real time; **PIR** motion and daylight sensor and**1-10V** driver for dimming the light source.

**IoT RC PIR HYT DALI** has: **PIR** motion and light sensor programmed by**RC** remote control and **DALI** driver enabling dimming of the light source.
