

# HULK LED EVO

GENERAL CARD

## TECHNICAL PARAMETERS

<b>Rated power of the luminaire [W]*:</b>	100.00; 150.00; 200.00
<b>Luminous flux [lm]*:</b>	16000; 24000; 32000
<b>Colour temperature [K]:</b>	4000
<b>Colour rendering index:</b>	>80
<b>Electrical protection class:</b>	I
<b>Impact resistance:</b>	IK07
<b>Ingress protection:</b>	IP65
<b>Material of the body:</b>	powder coated aluminium
<b>Colour of the body:</b>	black
<b>Diffuser material:</b>	glass
<b>Mounting version:</b>	suspended
<b>Dimensions (H/W/T/S) [mm]:</b>	205/153; 235/161; 265/161;
<b>Warranty [years]:</b>	5

## CHARACTERISTICS

HIGH-BAY lamp with LED technology. The body is made of die-cast aluminium, powder-coated black, with passive heat dissipation. LED modules with high luminous efficacy (160 lm/W) ensure that the required lighting levels are achieved while saving energy and reducing purchase costs. The diffuser is made of tempered glass, which does not alter the optics of the light source - it provides an overall distribution of 120 degrees. The lamp is terminated with electrical cables (which require an airtight connector if the connection is to be IP65 tight) and signal cables for 1-10V light intensity control. The design of the lamp is suitable for pendant mounting using the threaded, eyebolt hook supplied. The lamp should be suspended by means of a cord or chain dedicated to such solutions (not supplied).

## APPLICATION

The lamp is designed for suspended mounting (using chains, cables, etc.) indoors, even in high humidity (IP65). It is ideal for use in factories and production halls as well as large-scale warehouses and logistics centres.
