## GENERAL CARD

### TECHNICAL PARAMETERS

<b>Light source:</b>	SMD LED
<b>Luminous flux of the luminaire [lm] - range:</b>	60-1000
<b>Battery:</b>	Li-ion 3.7V 5200mAh
<b>Diffuser colour:</b>	milky
<b>Charging time [h:min]:</b>	4h
<b>Colour of the body:</b>	black
<b>Dimensions (H/W/T/S) [mm]:</b>	260/75/75;

### CHARACTERISTICS

The LED hand lamp is an option for those working in the automotive workshop, mobile service, garage or construction site. The functionality of LED hand lamps will benefit both professionals and DIY enthusiasts - anyone for whom good lighting is important during work or hobby activities. The lamp is characterised by a smooth change of light beam in the range of 60-1000lm, a 180° swivelling upper part and a hook and strong magnet in the base, which allows you to focus on the task at hand. A five-stage battery level indicator helps to control the lamp's burn time. The Power Bank function allows other devices to be charged from the lamp battery - e.g. a mobile phone. Illustrative operating time for selected streams: 1000lm - operating time 1.5h; 60lm - operating time 24h

### APPLICATION

The Mustang LED workshop lamp has been designed for use in industry, garages, paint and detailing workshops and construction sites. The lamp is the ideal solution for auto-detail shops, as the light emitted by it perfectly shows the "clouds" and the untreated surface of the car body. Thanks to infinitely variable light output from 60 - 1000 lm, scratches and clouds are even more visible.
