

TERRANO S/R DUO

GENERAL CARD

TECHNICAL PARAMETERS

Ingress protection:	IP20
Rated power of the luminaire [W]*:	28.00 - 90.00
Luminous flux [lm]*:	3000 - 10100
Colour temperature [K]:	3000; 4000
Colour rendering index:	>80
Material of the body:	powder coated steel
Colour of the body:	black; white
Diffuser material:	PC
Diffuser type:	matrix led
Mounting version:	track
Dimensions (H/W/T/S) [mm]:	630/98/85; 1180/98/85;

CHARACTERISTICS

The new Terrano S/R DUO linear luminaire is characterized by energy efficiency and excellent technical parameters thanks to the use of the latest generation of LED modules. Terrano S/R DUO lamps equipped with focusing lenses are eye-friendly and effectively reduce glare (UGR within the range of 12-19). Mounted in a busbar system, they are available in two color temperatures: 3000 K and 4000 K and two color versions: white and black. The 630mm and 1180mm long versions allow two light systems to be rotated independently by 45°.

APPLICATION

Installation on a busbar system increases the range of applications of this lamp and allows the user to make arrangement changes, also after installation. The lamp has an adapter equipped with mechanical hooks that make it easier to connect, disconnect and move the lamps, while ensuring a secure hold of the fixture in the rail. The lamps, together with appropriately selected rails and elements, allow for ceiling or wall mounting. The Terrano S/R DUO lamp is perfect as a light source in offices, shops, dressing rooms and passageways.
