CHARACTERISTICS

LINEA S LED is a surface-mounted and suspended light-line system, representing a new generation of luminaires dedicated to LED technology. The innovative connection system and loop-through cabling enables the rapid assembly of luminaires into a light line and allows flexible replacement of light modules to meet current needs. The design used allows for easy assembly and power connection. The steel body, designed from the ground up, ensures the luminaire's strength and robustness, while the narrow side profile allows installation in hard-to-reach areas.

APPLICATION

Versatile led lamp designed for indoor use, especially recommended for lighting large-scale commercial, manufacturing and warehouse facilities. The lamp for use in both new applications and replacements of traditional T8 and T5 fixtures with energy-efficient LED solutions.
