SPARK PRO LED

GENERAL CARD

TECHNICAL PARAMETERS

Ingress protection:	IP44
Luminous flux of the luminaire [lm] - range:	250 - 980
Supply voltage [V]:	3.7
Electrical protection class:	III
Color rendering index (Ra) >:	80
Charging time [h:min]:	3
Battery life [h:min]:	1.40-11
Battery:	Li-Ion 3,7V
Dimensions (H/W/T/S) [mm]:	180/70/40;

CHARACTERISTICS

This work lamp is the perfect solution for mechanics, tradespeople and DIY enthusiasts. It is a modern work lamp that allows the light beam to be directed in various directions (thanks to its flexible light head). It can be fitted with a frosted diffuser that scatters the light and provides a 360-degree illumination effect. The lamp has a hook allowing it to be hung on any surface. The lamp is used to illuminate the workplace. It is particularly useful in garages servicing cars, vans and lorries. The replaceable battery can be charged separately (away from the lamp) using a C-connector.

APPLICATION

Car repair shops (repairs for cars, vans and lorries), car detailing centres, car washes, mobile repair services, etc.
